

NDCRS ARCHITECTURAL SITE FORM PAGE 2A—Bridges Only

Field Code

SITS# 32

Page 2A is intended to be used to record bridges. **It is a supplement of the Architectural Site Form. Omit Page 2A if a historic bridge is not present.** See the *NDCRS Training Manual: Architectural Sites* for details. This section is adopted from a draft of the *NDDOT Historic Bridge Recording Standards* developed by the North Dakota Department of Transportation (Christensen 2006).

NDDOT Project #:

Bridge Type:

Truss Type/Subtype:

Concrete

Steel

Wooden

Materials:

Roadbed

Superstructure

Substructure

Railings

Additional Information:

ATTACHMENTS—include a topographic map, a scale drawing, photographs, and any other attachments in the ***NDCRS Site Form Map & Photo Section***.

Photograph Standards:

- 1) A view down the road through the bridge
- 2) A profile view of the bridge from the side
- 3) A view of the substructure (abutments and piers)
- 4) A view of the bottom of the deck (if possible)
- 5) A view of any makers' marks or bridge plaque present
- 6) A view of any unusual design, material or construction features

Scale Drawing:

- 1) Scale drawing may replace the site sketch map for the site form
- 2) **Must be to scale**
- 3) Show proper dimensions of the bridge, abutments, piers, approach roadway, guardrails, and any other features

Instructions to complete a digital version of this form: (1) Download a copy to your hard drive; (2) Open the saved blank copy; (3) Fill out the form; (4) Use the Save As command to rename the form appropriately and save; (5) *Print* and submit to SHSND.
