## Dorry's Diary:

### Enderlin, North Dakota, in 1919

edited by Alpha B. Shaw

*Dorry was born Llewellyn Dorrington Shaw at Enderlin, North Dakota, 20 September 1904, the second of three brothers. He died at age 69, as did his father and grandfather before him, and his ashes repose at Arlington National Cemetery with those of others who devoted their lives to the service of our country.*

*His mother's parents, Peter and Ingre Hoisen Austad, came separately from Norway to meet and wed in Iowa. Their homestead was Center Farm near Enderlin. His father's parents, John and Jane Brighton Shaw were wed in Scotland and came to Fergus, Ontario, via New York City. Dorry's parents, Will and Beata Shaw met and wed in Enderlin.*

*After he grew up and left home, he returned to Enderlin for the hunting season as often as possible. The Enderlin Diamond Jubilee Celebration in July, 1966, was a source of much satisfaction to him, for it was there that he met and visited with many friends from former years.*

*Enderlin was a railroad town with roundhouse and shops, a major division point on the main line of the Soo. Life in this small prairie settlement town therefore centered much around the trains and their scheduled arrivals and departures.*

*Here we have in "Dorry's Diary" a glimpse of life in Enderlin during the spring of 1919, on the eve of The Roaring 20's. Delineated are the innocent pleasures and priorities of a young boy writing for English.*

Sun.-April 13, 1919

Did not get up until about 12, went out hunting with Arnold in the afternoon, got some sparrows and frogs, made a sling shot, pretty near got a bird the first shot, Tony Peterson got 6 gophers out by Smiths, I got 13 already 13 is my lucky no. going out there Mon. night.

This was a fine day, the sun was out, and all the snow is gone.

Hurrah? Zip! Boom—

Mon.-April 14

Spring's come

Seen some honkers going over, and I sure was thrilled. When I see honkers ("Canadian Wild Geese") I go crazy, cause I just want to [go] with them

When I got to school, I heard some more, and just had to leave the room, but they were gone, -

Oh! Sad tale—

going hunting tonite with A. Byork-kid, after gophers out by Smiths, God bless the gopher's—

Tues. 15,

Hunting season on muskrats closes today, and I haven't seen any since last autumn, Hope I get one tonite in the traps, we set up the tent tonite after school, and put our beds and fixed it all up before six bells.

Sold papers tonite, saving to get a 45.00 bicycle, I got \$17 more to get, I sold one of my B.B. gun to A Boyork kid for 2.50 a little toward the bicycle, fine day, and didn't go down to the traps, got to take them in soon. I made 18.95 this year from furs, I got 15 muskrats and 3 weasels, ma's still in the hospital, and is getting better.

Wed.16,

It got quite cold last nite, and so did I, but I don't care, heard rooster's crowing all night, or at least part of it, wonder what I will get in Algebra test, only 5 weeks of Real school left, then—swish-swash, plunge, the swimin' hole—

nothing doing tonite so I went hunting gophers, saw one and had a swell time trying to get him, but I finally stopped as it was near six, the train didn't come in till 9:20 and papers sold like hot cakes.

The Enderlin Roundhouse, about 1920

Soo Line trains punctuated the lives of generations of Enderlin residents.

Thur, 17,

It sure was cold getting up this morning and I stayed in bed until I heard some geese going over, that sure did livin' me up. My Lone Scout came yesterday and I am reading it all my spare time got 1 in Algebra test, I am going to see if I can quit. We did not have B.S.A. meeting Wed. on account of the train being late.

Boy Scout meeting to nite, and there was only 5 there, not much doing except to watch Ross'es fish, he stayed late this time, regular time is 9:00 this time it was 10:00 first time in the history of the B.S.A.

Friday 18,

Payed Curtis today for paper's, it was 7.73 cents. School got out early to-day, lots of kids skipped, and so was I glad I didn't, going hunting and trapping gophers tonight up to the cemetary didn't get any thing tho, nice day.

Sat. 19-1919

When I got up I went up to the grave yard to see my traps, did not get anything, but Pete got 3 yesterdays.

My team was going to play ball this afternoon but I went hunting I did not take my rifel this time, but took my frog-spear and speared frogs down by the dam, Vance sold his boat for 50¢, I guess the old "maple" has got water-logged and sunk, for I don't see her any more, when I got up by Skow's camp I seen a gopher and we drowned him out, and when he came out I stuck him with the frog spear-

He was a live an we were going to take his scalp (tail) when he slipped off, and beat it in a hole, which ran up hill,

some English, so we lost that one, just then Vance came along with big rifel, he said he shot lots of turtles, and gopher's, but the gophers went down there holes we went home with him, he showed me where one was that went down his hole, and I got him with the frog-spear. (3¢) for the tails now, I am coming out here tomorrow.

Sun-20.

A. Byork kid was over while I was still in bed and waited for me, we went up to see our traps, but nothing doing, on was set off but there wasn't anything in it.

We took our traps home, and A. Boyok kid said he was coming out with me this afternoon.

He didn't though I went with Curtis and I got 2 stripes and 1 corron which make me about 15 now, was fishing Sat, and caught a few fish, but traded them for a gopher tail.

My gun is no good it don't repeated, and am going to take it back tomorrow-mabe - yes.

Mon-21,

Took my gun back-

Had a fight with Curtis today, not much damage done, nothing doing in school, some of the kids that skiped came to school, and M.D. taught music.

I guess I sing Alto, nice day today.

Tue 22

Papers didn't come till 9:20.

Had a fight with H.B., in which I just threw him down on the sidewalk, I spose ma will give me Cain now I allways did

have a grudge against him and was just going to hit him when some big fellows stoped me B. is the biggest baby in town, and when I get a chance, — whoop— —ouch— poor B., the villain meaning H.B. lies dead upon the ground.

He was throwing a gunny sack which the kids had filled with mud and water, (altho I don't touch or go near B.) I threw at Carrol B., they were out courting M.K. so I guess didn't like it. They threw it back and so did and I hit B. in the back of the neck, he came runing by and threw it, I ducked it, and B. grabbed the sack again to throw. I duck it again and tackled him on my knees, as he was coming fast he rolled me over, and I came out on top. He hit his head on the front step of Rue's and just then the big kids came, I asked him if he had enough and I guess he was pretty near bawling, so I just rubbed my hand over his face (I had had that dirty sack in my hands, so they were all muddy).

Had a fight with Cookie too, just a scramble for a broom to mop the kids faces.

Dance tonite, the band came over and played. it cost \$1.10, then played at U graduation, too.

Wed 23.

Rain last nite, cold as winter in the tent, when I came to school B. didn't even look at me. This noon when I got home, I just settled down to read my Lone Scout when Curtis came a whoopin in there with a Hun helmet (the Kaisers!), he said pa got it for selling V Bonds! Pa sold \$95.00 hundred dollars worth and won the helmit.

A tank was in town today, and all the kids were over to the tracks to see it.

We were jumping all over it, and moving in guns when Ford chased us off. That's the first tank I ever was on, altho I have seen them before, (no thanks to Ford) at the fair grounds, I was in a airplane too, (no thanks to Ford for that either) (God bless him) (?) getting winter again, cold as blazes outside, rather wish I slept in the house now, got to get and oral essay for English I. Oh my gosh —

I don't belive there will be a L.S.A.<sup>2</sup> meet tonite, my gun is still up to Byork and Standals.<sup>3</sup>

Thurs 24,

Scout meeting tonite. 6 there when there is suppose to be 60.

My gun is still up to Byork and Standals, I wonder when they will have it fixed. I want it Sat. It was not so cold out yesterday as the day before. Ole is starting a resturant and I went in there, I seen two wires hanging out and touch them together, oh you spark. Ole was going to kick me out. I hope it burned out a fuse plug. Curtis is not selling his share of potatoes and had said I could, we get half of the money. Dad went to the city<sup>4</sup> today, he said he would get me a wireless key.

<sup>1</sup>V-Bonds were the government-issued bonds with which the United States government raised the funds for World War I expenses.

<sup>2</sup>Lone Scouts of America.

<sup>3</sup>A local hardware store.

<sup>4</sup>The "city" is Minneapolis.
